The Royal Surrey County Hospital’s Charitable Fund

wishlist
to benefit our patients
Charity Aims

The charity’s primary aim is to support services that directly, or have the potential to, benefit patients of the Royal Surrey.

This is principally through the provision of medical equipment, improved/enhanced facilities and education, learning and development that are not normally provided by the hospital though NHS funding mechanism.

In exceptional cases funding is provided to support medical posts for a defined period when the patient benefit can be recognised, such as trialling a new procedure or contributing to the initial costs of establishing a new service at the hospital.

Your donations keep this support going

Without your help we would be unable to purchase equipment and other facilities that go beyond NHS provision.

Ultimately, our aim is to improve the patient experience here at the Royal Surrey and provide the best case anywhere.

Can you help your local hospital by making a donation towards our Wish List?

Would you like to make a donation towards a piece of equipment in a specific department of the Royal Surrey?

We have created this booklet to enable our supports to do just that. We have visited out wards and departments and asked the clinical staff what they would ‘wish’ for to benefit their patients.

A donation of £40 will buy a musical soother for a little patient in our children’s ward.

A gift of £100 could be used to purchase two ‘reminiscence’ boxes for patients with dementia.

Perhaps you work for a company who may like to choose us as Charity of the Year? A fundraising effort with your colleagues could raise enough money to purchase an iPad for patients in intensive care to aid patient communication.

Are you a member of a community group such as Rotary of a Golf Club? A year-long fundraising initiative may enable us to supply Digital Reminiscence Therapy for dementia patients.

We welcome all donations, no matter how small. ‘Mighty oaks from little acorns grow’

Thank you for your support!

Supporters donate for many reasons

- Those who want the best possible care for their friends and family.
- Individuals and businesses who wish to give to support their community and give regularly.
- Those who have received a good service and wish this for others.
- Family members often donate in memory of a loved one as a thank you for the care received.
Radiotherapy Department

Acrylic pictures for waiting area

**Quantity:** x3  **Price:** £100 each

**Benefit:** Relaxing images to improve the environment for patients.

The radiotherapy waiting room can be quite a daunting place and often patients can be in the department for some time. We would like to make the waiting space more relaxing by adding some art.

---

TV and wall bracket

**Quantity:** x1  **Price:** £650

**Benefit:** Enabling patients to sit and watch TV whilst waiting for treatment.

---

Jigsaw Table

**Quantity:** x1  **Price:** £150

**Benefit:** Allow patients the opportunity to relax and spend time doing jigsaws whilst waiting for treatment.

---

Hot oven

**Quantity:** x1  **Price:** £3,500

**Benefit:** This will allow clinicians to heat thermoplastic material which is vital for creating comfortable and accurate immobilisation for patients having radiotherapy to the head and neck.

---

Portable bladder scanner

**Quantity:** x1  **Price:** £8,000

**Benefit:** Some patients require daily bladder scans to improve treatment accuracy and reduce side effects. An additional machine would enable more patients to have this service.

---

Fukuda ECG monitor

**Quantity:** x1  **Price:** £1,750

**Benefit:** An additional ECG machine will allow us to monitor patients attending for radiotherapy who have cardiac devices.

---

Softouch couch top pad RT-4488-02

**Quantity:** x4  **Price:** £270 each

**Benefit:** Enhancing patient comfort whilst they have their radiotherapy.

---

Softouch couch top pad RT-4488-04

**Quantity:** x4  **Price:** £270 each

**Benefit:** Enhancing patient comfort whilst they have their radiotherapy.

---

Radiography Department

Roberts ‘revival’ mini portable DAV + radio in black and gold

**Quantity:** x1  **Price:** £140

**Benefit:** Patients will be able to select a radio station to listen to during their MRI scan, helping patients feel calmer during their scan.

---

Merrow Ward

Bariatric portable wheelchair scales

**Quantity:** x1  **Price:** £1,429

**Benefit:** To allow accurate measurement of bariatric patients who are mobile or in a wheelchair. These will help with medication dosage and weight monitoring.
Clandon Ward

Patient mirrors
Quantity: x5  Price: £21.99 each
Benefit: These will assist patients in managing their own airway care following a tracheostomy or laryngectomy.

Writing boards
Quantity: x5  Price: £17 each
Benefit: To assist patients who are unable to communicate verbally

Compton Ward

Mobile drip stands
Quantity: x5  Price: £100 each
Benefit: These mobile drip stands will prevent patients with intravenous infusions being confined to their beds.

Drug trolleys
Quantity: x2  Price: £700 each
Benefit: Larger than previously, these trolleys enable the nurses to dispense medications to the patients more efficiently. These are also far easier to manoeuvre around the ward.

Linen trolleys
Quantity: x2  Price: £200 each
Benefit: These will enable the nurses to have disposal bags for used linen combined with a separate area for clean linen on each trolley. These trollies can be taken into each bay when bedmaking. This means the nurses spend more time in the bays and less time going back and forth to the linen cupboard. Patients find the nurses presence in the bays very reassuring.

Elstead Ward

Examination Trolley
Quantity: x1  Price: £350
Benefit: The trolley will be very helpful for storing all the equipment that is needed for a gynaecological examination. All equipment will be close at hand to reduce anxiety for patients.

Hascombe Ward

Breastpump with Mobile Stand
Quantity: x1  Price: £3,500
Benefit: The breast pump has been developed specifically to support mothers throughout their lactation journey: to initiate, build and maintain adequate milk production.

Baby sensory toys (Hascombe Ward)

Baby mobiles
Quantity: x3  Price: £34.99 each

Black and white mobiles
Quantity: x6  Price: £8.99 each or under

**Intensive Care Unit**

**Hover mat**

- **Quantity:** x1
- **Price:** £3,000
- **Benefit:** This will help to move patients in a controlled manner and reduce handling difficulties for staff.

**Projection Wall Clocks**

- **Quantity:** x2
- **Price:** £50 each
- **Benefit:** These would be very useful in the isolation rooms. They project the time and date on to the wall.

**Illuminated Wall Clock**

- **Quantity:** x1
- **Price:** £19.99
- **Benefit:** This will allow patients to see the time clearly displayed at night.

**Patient Information Boards**

- **Quantity:** x2
- **Price:** £90 each
- **Benefit:** These are used to write the date and name of the nurse caring for the patient. Family members can also use the board by personalising it with messages.

**iPads**

- **Quantity:** x4
- **Price:** £400 each
- **Benefit:** For use by patients and as an aid to communication.
Infection Control Unit

**Pebble Audience Response system**

**Quantity:** x1  **Price:** £599

**Benefit:** The Pebble Audience Response system is designed to create interactivity between the presenter and their audience. By using one of the wireless Pebble handsets the participants can answer questions that are either pre-prepared or produced on the fly. Questions can include:
- true/false multiple mark
- numeric
- sequence
- likert scale
- e-vote
- yes/no
- multiple choice
- demographic answers

**Glo and Tell Machine**

**Quantity:** x1  **Price:** £117.6

**Benefit:** The Glo Box has been redesigned as a soft shell, foldable box that will allow you to do demonstrations in brightly lit surroundings. Designed to block ambient light and provide a vivid display of our simulated germs. The Glo Box Kit contains one 250ml bottle of Glo Germ Gel, one 50 gm Glo Germ Powder, a 21 LED UV Flashlight (batteries included) and the fold flat Glo Box.

**Gel for Glo & Tell**

**Quantity:** x6  **Price:** £23

**Benefit:** The new gel is recommended where staining may be of concern and shows up brilliant blue-white under UV light. Comes in 250ml bottles and is used to demonstrate proper handwashing. Comes with a pump action top for maximum control. Each bottle is good for 75 to 100 applications.

Hindhead ‘Stepping Down’ Ward

**Radio**

**Quantity:** x1  **Price:** £50

**Benefit:** To provide some entertainment for patients.

Endoscopy Department

**Olympus High Definition LCD Monitor OEV262H Two Monitors**

**Quantity:** x2  **Price:** £40,000

**Benefit:** The unit would benefit from two high definition monitors which are used by clinicians and their teams to watch procedures on patients in ‘real time’.

Chilworth Unit

**Cooling - Cap for Chemotherapy Patients**

**Quantity:** x1  **Price:** £40,000

**Benefit:** The Dignicap is the latest piece of technology that can significantly reduce hair loss in most cases, allowing patients to keep all or most of their hair while receiving certain types of chemotherapy treatments.
**Onslow Ward**

**Arjo Maxi Move Hoist**

**Quantity:** x1  **Price:** £7,500  

**Benefit:** This hoist is used in moving patients and is also capable of weighing so perfect for accurately managing nutrition needs in less mobile patients.

**Dementia ‘Forget Me Not’ Fund**

**Reminiscence boxes**

**Quantity:** x10  **Price:** £50 each  

**Benefit:** The use of Reminiscence Boxes in our older patient unit improves orientation and encourages increased levels of communication between carers, patients and their families. The content will reflect the owners life and provide invaluable information to carers and provides a focus point on the ward and a trigger for discussion with the patients.

**Digital Reminiscence Therapy**

**Quantity:** x1  **Price:** £5,000  

**Benefit:** To provide memory therapy for dementia and neurology patients, the ‘My Life’ reminiscence software package includes a touch screen interactive system, which can be used at the patient’s bedside, and contains a huge range of photographs, video clips, radio shows, music and lyrics dating back to the 1930’s.
