

Waiting times for operations

For each of the following operations:

1. How many operations were carried out by your trust a) between 1 April 2015 and 31 March 2016 and b) between 1 April 2016 and 31 March 2017;
2. What was the average wait for each operation at your trust a) between 1 April 2015 and 31 March 2016 and b) between 1 April 2016 and 31 March 2017;
3. What was the longest wait for each operation at your trust a) between 1 April 2015 and 31 March 2016 and b) between 1 April 2016 and 31 March 2017;

Please give data for the following operations:

- A. Hip replacements
- B. Knee replacements
- C. Cataracts
- D. Hernia operations
- E. Removal of gallstones
- F. Removal of tonsils.

Please use this spreadsheet for replies if possible:

	1 (a) Total operations between 1 April 2015 and 31 March 2016	1 (b) Total operations between 1 April 2016 and 31 March 2017	2 (a) Average wait between 1 April 2015 and 31 March 2016	2 (b) Average wait between 1 April 2016 and 31 March 2017	3 (a) Longest wait between 1 April 2015 and 31 March 2016	3 (b) Longest wait between 1 April 2016 and 31 March 2017
A. Hip replacements	527	547	39.62	53.23	219	233
B. Knee replacements	264	361	85.92	94.93	269	286
C. Cataracts	714	582	83.94	90.50	288	255
D. Hernia operations	504	534	68.36	93.58	937	485
E. Removal of gallstones	There are several types of operations to treat gall stones, from the removal stone to removal of gall bladder, therefore statistics have not been provided for these operations.					
F. Removal of tonsils.	250	207	68.804	58.24	238	339

Note for answers provided in columns regarding longest wait, this may be part of planned pathway of care which would include time for monitoring before operation and recuperation.
