

Please find attached in the excel document the specific questions that we are posing. The eight questions that we are looking to find the statistics for under the act are:

*Please note that Royal Surrey County Hospital NHS Foundation Trust can only provide figures based on a complaint of 'Carbon Monoxide Poisoning'. There may be patients that came in with carbon monoxide poisoning but the complaint was recorded as something else and without the treatment details on the Patient Administration System as stated above, these patients are not included in the figures.

1. How many cases have attended A&E with suspected carbon monoxide poisoning between 1st July 2014-30th June 2015?

Age Group	Number of Cases
All cases	12
Children aged 0-18	2
Adults aged 60+	3

2. How many cases have attended A&E with suspected carbon monoxide poisoning between 1st July 2015-30th June 2016?

Age Group	Number of Cases
All cases	19
Children aged 0-18	5
Adults aged 60+	1

3. How many cases have attended A&E with suspected carbon monoxide poisoning between 1st July 2016-30th June 2017?

Age Group	Number of Cases
All cases	19
Children aged 0-18	2
Adults aged 60+	1

4. How many cases have attended A&E with suspected carbon monoxide poisoning between 1st July 2017-30th June 2018?

Age Group	Number of Cases
All cases	19
Children aged 0-18	6
Adults aged 60+	0

5. How many cases have been treated in A&E with suspected carbon monoxide poisoning between 1st July 2014-30th June 2015? *A&E treatment information is not recorded on the Patient Administration System, so these are the patients that were admitted for Carbon monoxide poisoning from A&E. These figures have been aggregated to reduce the potential to identify.

Age Group	Number of Cases
All cases	<10*
Children aged 0-18	0
Adults aged 60+	0

6. How many cases have been treated in A&E with suspected carbon monoxide poisoning between 1st July 2015-30th June 2016?

Age Group	Number of Cases
All cases	<10*
Children aged 0-18	0
Adults aged 60+	0

7. How many cases have been treated in A&E with suspected carbon monoxide poisoning between 1st July 2016-30th June 2017?

Age Group	Number of Cases
All cases	<10*
Children aged 0-18	0
Adults aged 60+	0

8. How many cases have been treated in A&E with suspected carbon monoxide poisoning between 1st July 2017-30th June 2018?

Age Group	Number of Cases
All cases	0
Children aged 0-18	0
Adults aged 60+	0

Please provide the information in the form of the tables attached and within the age ranges specified.
